ABL CYBER ACADEMY
in Partnership with The Reveille Foundation
is now offering 2 Certificates in 1 Course

Google IT Support Professional Certificate and IT Fundamentals Certificate

This program was designed to help job seekers without any prior experience start a career with high-growth opportunities.

This Certificate program allows learners a flexible and convenient way to study. It covers topics including troubleshooting, customer service, networking, operating systems, systems administration and security — all the fundamentals of IT support that are critical for success in the workplace.

No degree or prior experience required! *This is a launchpad to an IT career!*
In this program, students learn the in-demand skills to be <u>job-ready in 3 to 6 months.</u>
Gain skills required to succeed in an entry-level IT capacity.

#1- CompTIA IT Fundamentals (ITF+) Certificate

ITF+ is proof to employers you have a competency and propensity for IT

- CompTIA IT Fundamentals+ (ITF+) is an introduction to basic IT knowledge and skills and helps students develop a broader understanding of IT.
- ITF+ establishes an IT education framework for those newly entering the field of technology.

#2 - Google IT Support Professional Certificate

- Learn to perform day-to-day IT support tasks including computer assembly, wireless networking, installing programs, how to provide end-to-end customer support, ranging from identifying problems to troubleshooting and debugging
- Learn to use systems including Linux, Domain Name Systems, Command-Line Interface, and Binary Code
- Prepare for an entry-level job in IT support through an innovative curriculum developed by Google. 80% of Google IT Support Professional Certificate learners report a positive career impact within 6 months. This program prepares students for the CompTIA A+ exams, the industry standard certification for IT.
- This program is ACE® certified—earn up to 12 college credits, the equivalent of 4 associate degree-level courses.
