

AVID AT A GLANCE

What is AVID?

Advancement Via Individual Determination

AVID at Chandler High is a **4-year program** consisting of both a 9-12 college-prep elective class and a school wide set of research-based instructional practices to improve success for all students. AVID students are capable of completing college-prep curriculum and have a strong desire to attend college. The AVID curriculum is designed to help students fulfill their potential; academic instruction, tutorial support, and motivational activities help keep each student on track.

Students apply to be interviewed for the program and, if selected, choose AVID for one of their elective classes for all four years of high school.

AVID students conduct socratic tutorials each week, engage in rigorous AVID curriculum (includes: Writing, Inquiry, Collaboration, and Reading), and participate in both college visits and team building.

To enroll in AVID at Chandler High:

1. Let your counselor know that you want to take AVID next year at Chandler High
2. Complete the application
