# HOLISTIC FRAMEWORK

- **ESSENTIAL ANCHORS OF TRANSFORMATION** [Important tools or topics that help to ensure implementation]
- **CLUSTERS OF PEDAGOGY** [Understanding the spectrum of facilities, ranging from antiquated to contemporary. Being able to place yourself on that scale]
- **PROGRAM STRUCTURES** [Within any school setting, influences that directly impact students and teachers]

# ESSENTIAL ANCHORS OF TRANSFORMATION

1

21st Century Vision of Teaching and Learning

2

Impactful Pedagogy to Serve that Vision

3

Transformative Leadership to Enact the Vision

4

Deep Implementation Across Systems, Structures and Policy

# ESSENTIAL ANCHORS OF TRANSFORMATION

## 21ST CENTURY VISION

- *“The antiquated notion of student as receptacle is over.”*
- Transformative districts embrace a set of 21st Century competencies; some have specifically *adopted a profile or portrait of a graduate*, a vision statement outlining the competencies that are critical for each student to develop, *beyond content mastery and memorization.*

## IMPACTFUL PEDAGOGY

- *“Pedagogy results in action.”*
- Rather than dissemination of information, competencies require pedagogies such as project-based learning, design thinking, and inquiry-based learning.
- Requires teachers to *reframe, rather than simply recalibrate* their professional role.

# ESSENTIAL ANCHORS OF TRANSFORMATION

## TRANSFORMATIONAL LEADERSHIP

- Departure from a rigid hierarchical leadership structure.
- Leaders *model the creativity, collaboration, communication and critical thought* they want too cultivate in their schools.
- Visionary and committed senior leader that *empowers their teams and teacher as leaders* in their own right.

## DEEP IMPLEMENTATION

- *“The physical plant of a school is a concrete manifestation of pedagogy.”*
- Reconstruct outdated conceptual structures such as time, organization of groups, and professional development.
- Seismic shift in view of profession, *project that view to the public, employ it with policymakers.*

# ANTIQUATED PEDAGOGIES

A photograph of a classroom. A female teacher stands at the front near a whiteboard and a green chalkboard. Several students are seated at desks, and many of them have their hands raised, indicating an interactive or questioning session. The classroom has large windows on the left side.

“

*Teacher covers and deposits info to students as empty vessels, obedient receivers, receptacles to be filled, with no “discovery”.*

”

# CLASSICAL PEDAGOGIES

*Teacher as guide, nurturer, stimulator. Student as creative, critical thinkers, collaborative team members, researchers, knowledge organizers.*

# CONTEMPORARY PEDAGOGIES

The image shows a bright, modern educational environment. In the foreground, several children are gathered around a white table, engaged in a hands-on activity with small potted plants. A large, blue, geometric structure, possibly a play or learning station, dominates the middle ground. In the background, a staircase with a blue railing leads to an upper level where more people are visible. The space is well-lit with large windows and modern lighting fixtures.

“

*Both teachers and learners as self navigators, social contractors, media critic and media makers, innovative designers, global citizens.*

”

# SPACE

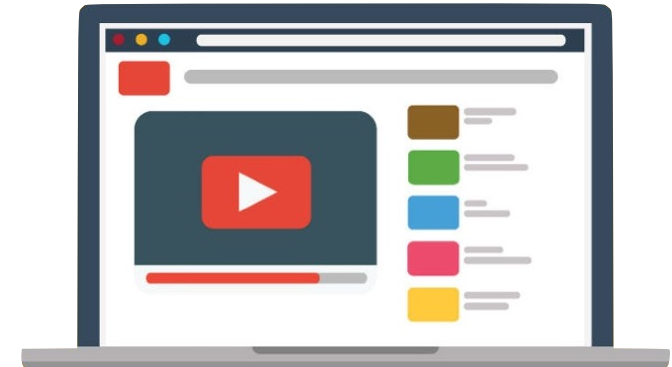

RANK & FILE SEATING  
Used for one-way Teaching

- Four walls
- Reflection of standardization and uniformity (factory age)

- Breakdown of four walls
- Various learning experiences on site (library, gardens, etc)

- Issue and skill based
- Furniture as an enabler
- Diversity and cross-pollination of activities
- Virtual

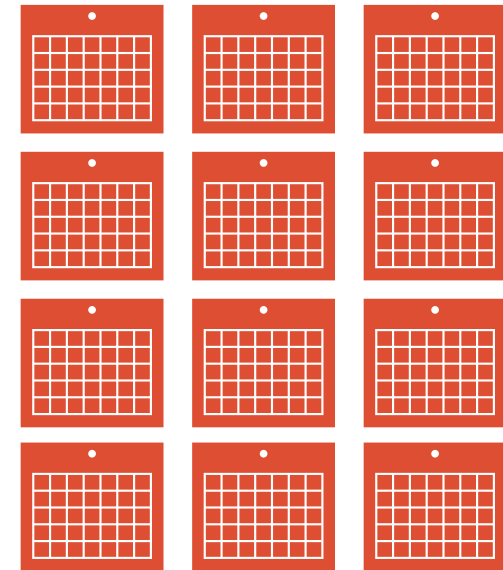

# TIME

- Agricultural schedule/cycle
- Curriculum fits within Schedule

- Latitude afforded with periods, blocks, modules, anchor days, etc.

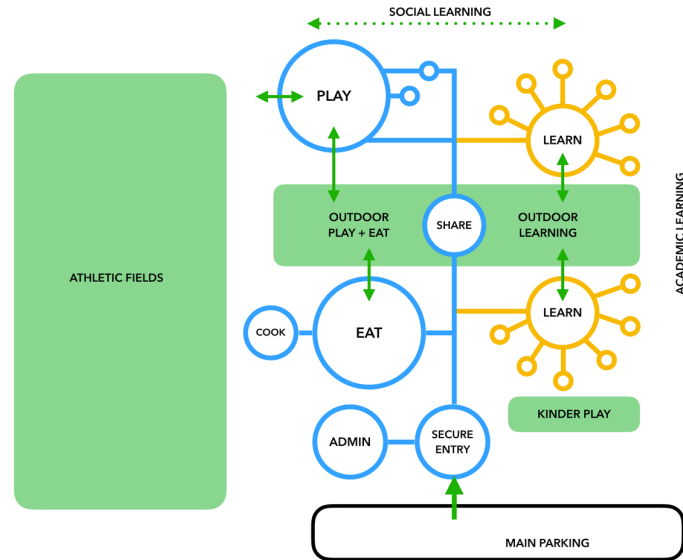

- Task determines time
- 24 / 7 / 365 via virtual learning

# GROUPINGS

- Designed for efficiency & coverage of content
- How many kids can a teacher manage?
- Constricted/isolated by space

- Institutional vs. Instructional
- Grouping via “differentiation”
- Grouping via subject, gender, age, activity, etc

- Coached self-navigation enabling learners to seek and find appropriate groups and possibilities
- Virtual learning studios, seminar rooms, and town squares

# PERSONNEL

- Self contained classes
- Isolation except for basic professional development
- Primary affiliation with other teachers in same grade

- Project/inquiry based learning causes collaboration
- Collaboration limited to on site
- Based on institutional practice

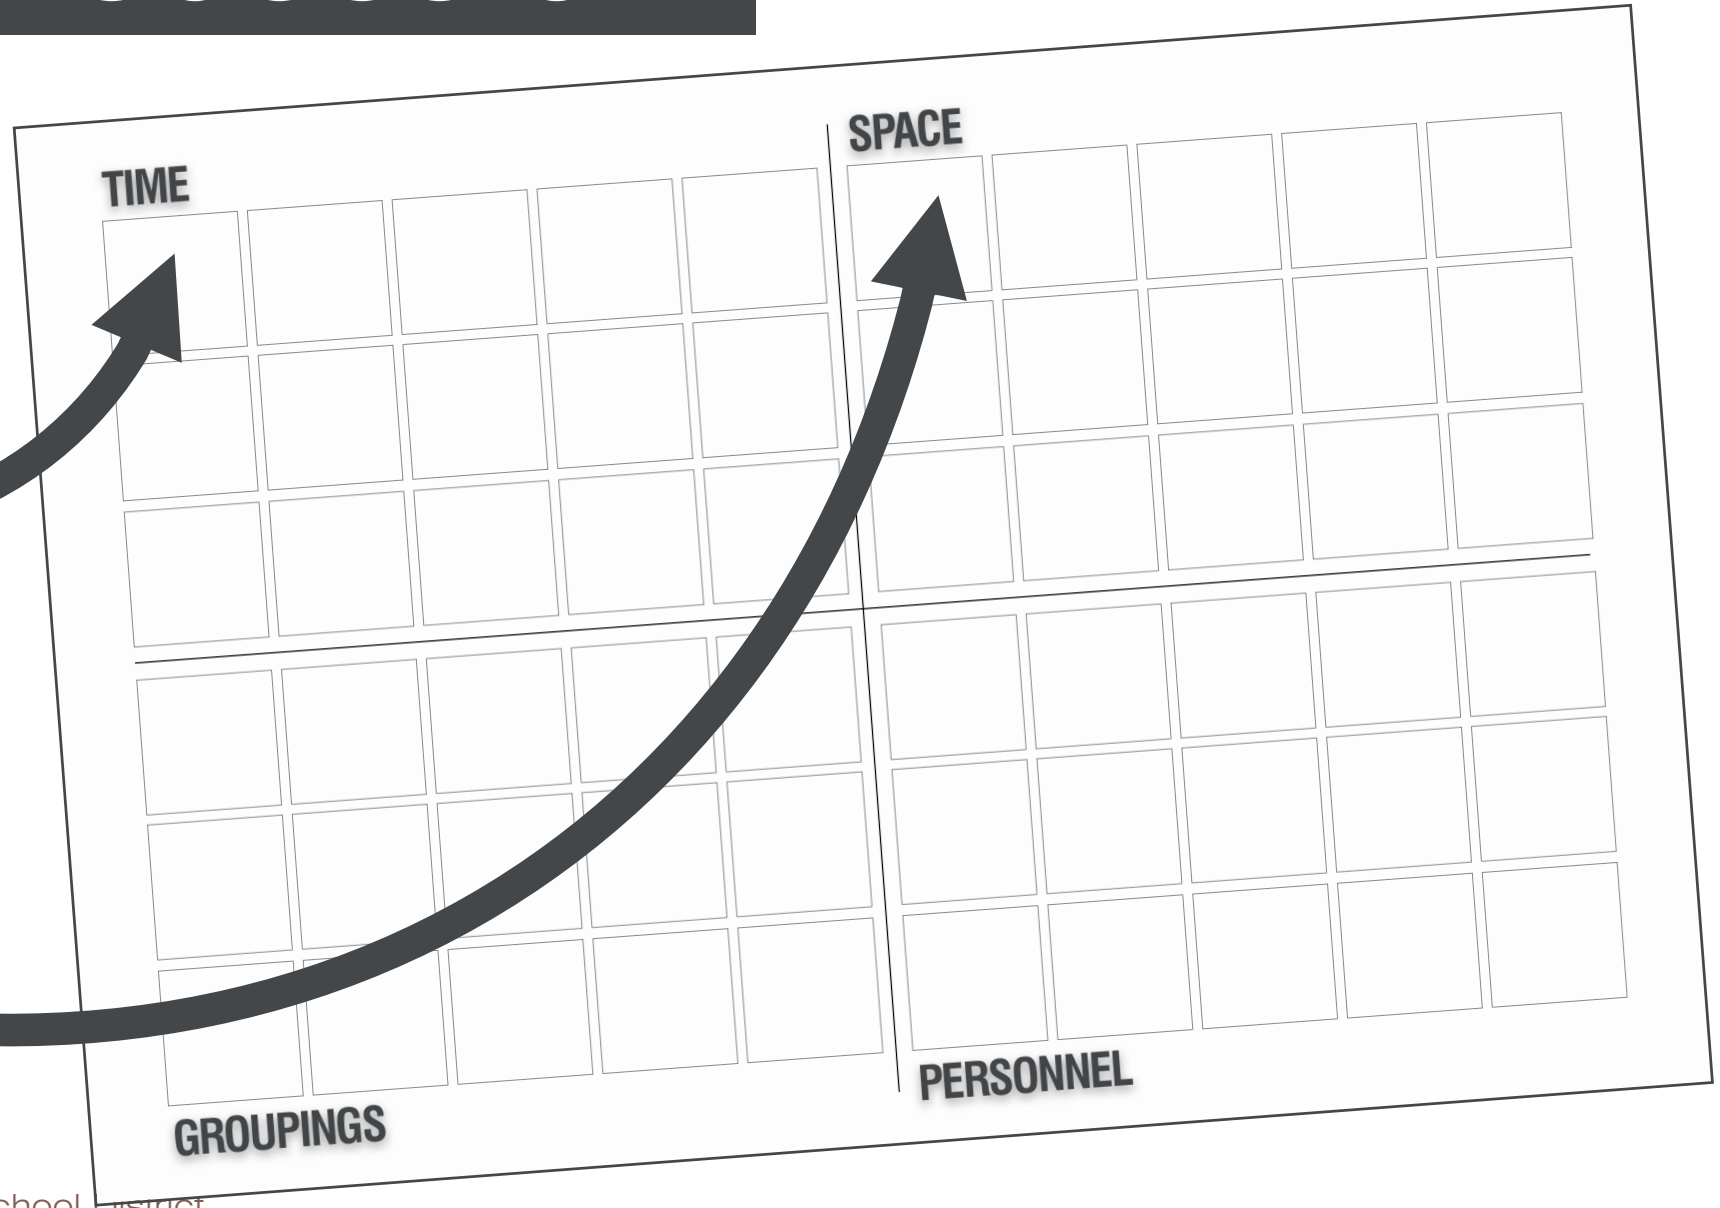

- Faculty can have multiple affiliations both on site and virtual (networking)
- Grouped by interest, mentors and coaches

# BREAK OUT DISCUSSION

We don't have enough time.

We love our makerspace.
