

# Community Contract

As a member of the Arizona College Preparatory Community and a participant in this classroom , I recognize the importance of respecting my and others' rights to an education. I will meet all expectations, upholding my individual responsibilities, by following the four agreements listed below:

- 1. I will not interfere with a teacher's right to teach, or a learner's right to learn.**
- 2. I will take responsibility for myself, my actions, and my property. I will not touch others or their property without permission.**
- 3. I will take responsibility for helping to create and maintain a clean and positive environment in which everybody is physically, academically, and emotionally safe.**
- 4. I will take responsibility for knowing and following school and district rules, as defined in my student handbook.**

# 'Step Out' Consequence Agreement

As a member of the ACP Community and a participant in this classroom, I acknowledge that there are consequences for my actions. I know that when I follow the community contract I will be more successful in school, have more opportunities to learn and engage in activities, making it an overall more enjoyable experience for everyone involved.

I know that if I 'Step Out' of my community contract I will be less successful and have fewer opportunities to learn and work in the classroom. I may also receive the following consequences:

Step 1- I will be **reminded of my obligation** to follow the community contract.

Step 2- I will be given a **final warning** to follow the community contract.

Step 3- **Reflection time** in another class or Lunch Time Reflection (LTR) and parent contact..

Step 4- LTR, sent to office, parent contact, possible referral or in-school suspension, as decided by school's administrators.

I acknowledge that my teacher may need to take any of these actions for any 'Step Out' situation, at any time.

I acknowledge that if my teacher considered any of my actions as breaking the community contract and I feel like I need to explain the situation, I will respectfully wait to discuss it at a more suitable time deemed appropriate by my teacher -- In saying this, I also acknowledge that if I instead chose to argue during class, I am breaking the Community Contract and I will earn consequences for my actions.

I acknowledge that repeated breaking of the community contract could result in the addition of an individualized contract and a conduct referral.

I acknowledge that certain extreme actions, such as violence against another member of the community, will result in an immediate referral to school administrators.
