Kindergarten and 1st Grade

Students learned about the parts of the computer
- Monitor
- Keyboard
- Headphones
- Computer (hard drive)
- Mouse

Students learned about the mouse
- How to single click & double click
- How to click and drag
- How to select items to be moved
- How to select multiple items at once

The beginning of the year is a time for our younger students are learning about the parts of the computer and the older students are working on digital citizenship concepts.

Practicing how to move our mouse

2nd and 3rd grade

Students were learning about digital citizens
- They discussed differences between a citizen and a digital citizen
- Students discussed what makes a good digital citizen
- Students were able to explain ways to help one another in digital platforms (text, games, apps, classroom, etc.)

4-6th Grade

Students were focusing on digital citizenship and cyberbullying
- Learning about what bullying and cyberbullying look like
- How to prevent them from happening
- How to help themselves or others who are being cyberbullied

Students also learned about private & personal information and how to keep their passwords safe in and out of school situations
