

# The New Digital SAT and PSAT/NMSQT

## Prepare for the transition to digital!

For the class of 2025 and younger, the College Board is transitioning the PSAT/NMSQT and SAT from pencil-and-paper format to digital format! Like most families, you're probably wondering what this means for your child. We're here to help!

Becoming familiar with this new digital-format exam will be key for students to build confidence as they prepare to tackle this significant academic milestone in the fall of their Junior year. To support students like yours in navigating these changes, our team has created a **free**, industry-leading practice digital PSAT/SAT designed to replicate the official exam across the following areas:

- 1 Design and user experience
- 2 Adaptivity
- 3 Content
- 4 Tools, like the Desmos graphic calculator
- 5 Features, like the ability to take breaks

All of our practice digital PSAT/SAT exams include a complimentary score report and score report review session with your dedicated Academic Advisor, identifying three high-impact areas for your child to focus prep on leading up to their official exam!

## To help make your family's journey on the transition to digital the smoothest it can be:

1. Attend a **free family webinar** to learn more about the digital format and timeline.

2. Visit our **Digital PSAT & SAT Resources page** to register your student for an upcoming practice exam, watch a video walkthrough, demo the testing environment, and more!

3. For a comprehensive list of FAQs regarding the switch, visit the link below:
