O Even with help, the student experiences no success.

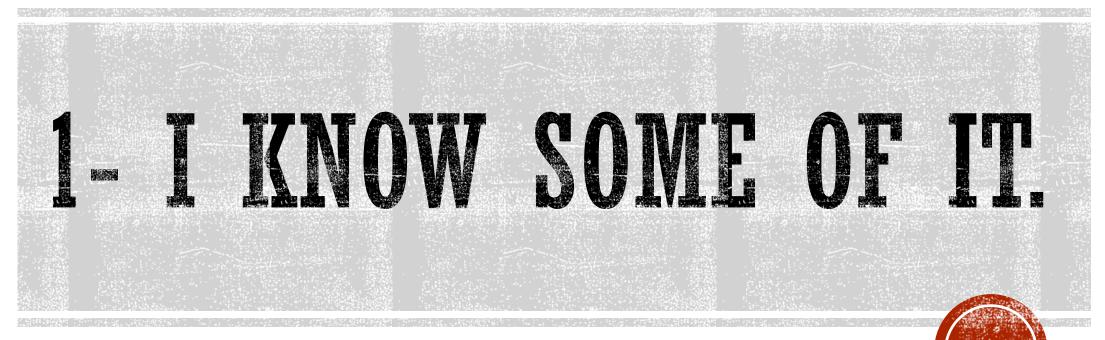

I understand the information and ideas. I can connect this to my own life and other subjects beyond what I learned in class. I can teach it.

3- I KNOW IT.

I understand all the information and ideas. I feel confident in what I know and will do well on a quiz or test.

I understand the easier parts, but don't understand some of the more difficult information or ideas.

I need more support and help to really understand a lot of the information or ideas.
