

Wednesday, January 29, 2020: Day 2

Classwork

- Finish Earth's Layers Interactive Notebook Activity.
- Density Cornell Doodle Notes.

HOMEWORK:

- Study for Density Quiz on Friday.

Warm-up Question:

Why does ice float in water if both are made of water?

You will need:

- Pencil.
- New Monitoring Log (Purple).
- Science Notebook.
- Hi-lighter

Hand in:

- Last week's Monitoring Log.

Learning Goal and Scale

TSW understand how the Earth's natural processes have shaped its landscape (including Lithospheric Plates and their movement, Convergent, Divergent, and Transform boundary landforms).

Scale	
4- I really know it!	I understand the information and ideas. I can connect this to my own life and other subjects beyond what I learned in class. I can teach it.
3- I know it.	I understand all the information and ideas. I feel confident in what I know and will do well on a quiz or test.
2- I know most of it.	I understand the easier parts, but don't understand some of the more difficult information or ideas.
1- I know some of it.	I need more support and help to really understand a lot of the information or ideas.
5- I don't know any of it.
