

# High Tide

Name \_\_\_\_\_

Ocean tides are caused mostly by the moon's gravity. When the Sun, moon, and Earth line up, the gravitational pull is greatest causing the highest tides, the spring tides. The lowest tides, neap tides, occur when the sun, Earth and moon form right angles. Label the neap tides, spring tides, sun, Earth and moon.

## WORD BANK

neap tides  
moon

spring tides  
Earth

sun

## Tides

Spring Tides—Gravity from the sun and moon pulls together on Earth.

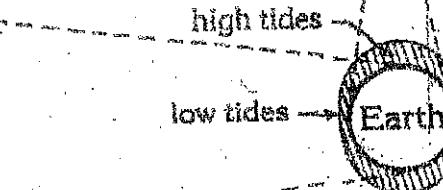

Neap Tides—Gravity from the sun and moon pulls against each other.

Earth pulled away from water—high tides

Water pulled away from Earth—high tides

Rotation of Earth causes two low and two high tides each day.

The \_\_\_\_\_ of the sun and moon is the main cause of tides on Earth.

When there are high tides, there are also \_\_\_\_\_ tides somewhere on Earth. \_\_\_\_\_ times a day.
