

Not All Alien Invaders Are From Outer Space

Name: _____

1. What has been happening in the US over the past two centuries?

2. What can happen to the ecosystem if a non-native species becomes **INVASIVE**?

3. How do alien, or non-alien, species end up in a new environment?

SPECIES	WHERE IS IT FROM?	WHERE DID IT INVADE?	NICHE? (Place in food chain, "job", how spends days, etc.)	EFFECT ON ENVIRONMENT IT INVADED

What problems do non-native species create for native species in an area?

Create a list of reasons why a species would invade an area.

Propose a solution to the problem of non-native species.
