Acrostic:

Niche

Niche is a term to describe a "relational position"
of an organism in its environment

In which an organism has a role to survive
and to help others survive

Collects food and water for nutrients

Habit a plant or animal does to stay alive

Ecological niche is how it gets its food, shelter,
how it survives and how it reproduces

Slogan:

Producer

**Producers, been making
our own food since 1796!**

Recipe:

Food Chain

Ingredients:

- $\frac{3}{4}$ consumer
- $\frac{1}{3}$ carnivore
- $\frac{2}{3}$ herbivore

Carrying Capacity

Dear Galapagos,
Only 10% of the iguanas are
having their needs met because of
lessening food, water, and more
natural disasters, humans, and
predators!

Thanks for your concern.
Love,
Planet Earth

**Letter to a friend:
Predator/prey relationship**

Dear Mouse,

**How are you today?
I was just wondering if you are
available to have dinner tonight
at my place? :)**

**Hope you can make it... it will be a
blast!**

**With love,
Mr. Snake**
