

# BASHA HIGH SCHOOL

## Live Production Experience

Basha Multimedia students learn how to setup and run live field productions. Sporting events, assemblies, concerts and plays! Our students learn everything it takes to get our shows live and on the air.

# Basha MULTIMEDIA

# We feed our Bears VIDEO CAMERAS

Basha Multimedia students are given hands-on experience with the same equipment used by industry professionals. This gives our students a huge advantage when entering the workforce.

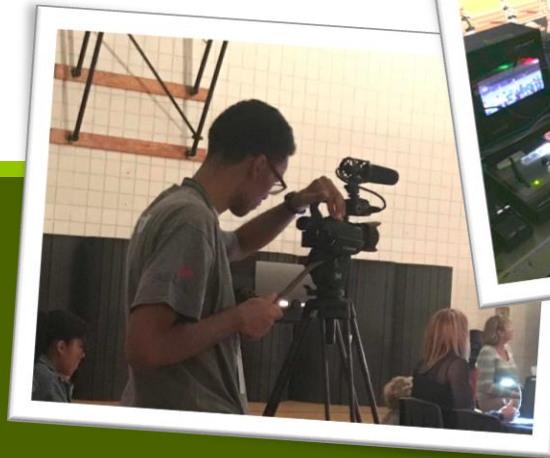

## Classes

### Multimedia and Film 1

This is an exciting hands-on class that provides the student with the fundamental concepts of video production. Students learn how to operate digital video cameras, video mixers, audio mixers and other studio equipment.

### Multimedia and Film 2

Students enrolled in this course will build on their production experience by producing news programs, commercials, public service announcements, highlight reels and fiction pieces among other projects. Students will also work on developing their own personal production styles. They will produce projects for themselves, other students, other teachers and the administration. They will develop their skills while mastering many of the editing features of a computer-based editing system. Students will also explore the television industry as a potential career.

At Basha High School, our students learn a variety of skills that help them compete in a variety of professions in the field of Multimedia and Film.

A Basha Multimedia student has no lack of tools to aid them on this task. Basha Multimedia is a hands on experience where students have access to state of the cameras and equipment, as well the latest in digital editing and recording.
